

Electrical Machines Laboratory Authorization Identification Form

Name Surname	
Student Number:	
Education Status	☐ Undergraduate ☐ Master's Degree ☐ Ph.D. ☐ Other: _____
Thesis Advisor:	
Authorization Start Date	
Authorization Expiration Date	
Authority Level	☐ Access during business hours ☐ Out-of-hours access ☐ Material Cabinet Authorization ☐ Thesis Cabinet (Cabinet No: ____)

Types of Authorizations:

- **Access during working hours:** Only the ID cards of these users are authorized. They can enter by scanning the card at the entrances and exits, but they cannot use the laboratory door when it is locked outside of working hours.
- **Out-of-hours access:** In addition to the electronic card authorizations of these users, they are given the lock key of the laboratory door or the password of the key cabinet. It is the user's responsibility to comply with the rules of use of working hours.
- **Material locker authorization:** In addition to the above authorizations, these users are given the key to the key box to access the material lockers.
- **Thesis cabinet:** In addition to the above authorizations, a personal cabinet and key are provided for personal belongings to be used in the student's thesis studies.

I undertake that I have read, understood and will comply with the rules stated on the back page. I accept that I take responsibility for any damages and legal liabilities arising as a result of any accident or property damage that may occur as a result of my failure to comply with these rules and/or as a result of my other personal negligence.

Faculty member who approves the form: _____

Laboratory Rules:

- a) General occupational and electrical safety rules will be followed while working in the electrical machines laboratory. These rules will be transferred to the authorized person after authorization by the laboratory supervisor and technician. In this introduction, information will be provided on the following topics:
 - Use of electrical panels, de-energization procedures and emergency stop buttons
 - Location and uses of first aid kits, fire extinguishers, security system
 - General material layout plan, laboratory ventilation equipment,
 - List of available equipment and ongoing projects
- b) It is forbidden to work alone in the laboratory in situations that require high power or may be risky in terms of occupational safety. Sensitivity should be shown in this regard, especially outside of working hours.
- c) Authorizations are made individually. It is forbidden to allow unauthorized and foreign persons into the laboratory. IDs, keys, or login passwords should not be shared with others.
- d) Keys will not be copied without permission and will not be lent to anyone else. In case of loss of keys or ID cards, laboratory supervisors will be informed as soon as possible.
- e) Materials, equipment, hand tools, etc. will not be taken out of the laboratory and will not be lent even for a short time. Such transactions will be carried out if necessary, within the knowledge of the technician and faculty member, by recording them with a report.
- f) The following rules should be followed in the use of doors and cabinets.
 - The laboratory outer door should always be kept closed, the door should not be left open, even for a short time. When leaving the lab outside of working hours, the door must be locked with an additional key. If the key is taken from the encrypted cabinet, it should be put back and the password should be mixed.
 - Material cabinets: Material cabinets should always be kept locked after the needed materials are received. It is the responsibility of the user to lock the materials used by placing them back in the appropriate cabinet after the test.
- g) The last person to leave the laboratory is responsible for turning off all lights, air conditioners and table switches related to the panel.
- h) When a malfunction in laboratory equipment or electrical installation is detected, the laboratory supervisor and technicians should be informed.
- i) In case of non-compliance with the above articles, all authorizations will be revoked indefinitely.
